

Bedford Township Law Enforcement Committee

Bedford Township has activated a new committee focused on law enforcement issues directly impacting our community. The committee will explore current need, potential new needs, funding sources and will also explore the viability and effectiveness of a possible Bedford Township Police Department.

If you have a background that you would find relevant to this type of work, please complete a committee application on the Bedford Township website (www.bedfordmi.org) and submit it to the Clerk's Department. Applications will be reviewed individually and preference will be given to those applicants with:

- Prior Law Enforcement experience
- Prior Emergency Services experience
- Prior civilian experience within emergency services

The application window will remain open until the five committee seats are filled.
